“Let us make our future now, and let us make our dreams tomorrow’s reality.”

~ Malala Yousafza
STUDENT SUCCESS

We are excited that your child is entering secondary school in our Board with our vision to…

“…educate students to excel in learning, to succeed in life and to enrich our communities.”

We are proud that our Board offers a full range of academic programs in caring and nurturing environments that encourage our students to achieve their personal best.

We have a strong, committed and dedicated secondary team in every high school to support our students in their transition. You will find Guidance teachers to advise students on course selections; Student Success teachers who can support students in making connections; Special Education departments and thriving peer mentorship programs.

We are fortunate to be able to provide many opportunities to support the grade 8 to grade 9 transition. All of our grade 8 classrooms are able to visit their high school a number of times throughout the year. Grade 8 Open House evenings are also an important component of our partnership with you as you learn about high school life, including program offerings and extracurricular experiences.

High schools also provide students with more opportunities to customize their learning experience and build on their strengths and interests through a variety of new and enhanced learning options. Our secondary schools are excited to provide students with diverse programs and experiential learning, such as the Ontario Youth Apprenticeship Program (OYAP), Coop placements and Dual Credits offered in later years.

Parents continue to play a critical role in the lives of their children in high school. Highlighting the importance education plays in providing the best life choices for your child is paramount to their success. Working in partnership with the school in supporting your child with effective work habits, time management, and regular attendance will all serve to support a wonderful experience for them.

I wish you great success in your journey to high school.

Sincerely,

Jennifer Leclerc
Director of Education
Terms and Definitions

Listed below are terms and definitions commonly used in Secondary School.

**Community Involvement Hours**
All students in Ontario are required to complete forty hours of service to non-profit community agencies as part of their Ontario Secondary School Diploma (OSSD) requirements.

**Compulsory Course**
Refers to 18 specific courses students must take, and fulfills part of the 30 credit Ontario Secondary School Diploma requirements (OSSD).

**Course Code**
This six character code describes the subject, grade level and course type or destination of a secondary school course.

**Course Type**
Compulsory Grade 9 and 10 course types can be taken as Academic, Applied or Locally Developed types of courses.

**Credit**
A credit value of 1.0 is granted upon successfully completing a 110-hour course with a minimum mark of 50%.

**Destination Courses**
Compulsory Grade 11 and 12 courses can be taken in the university, university/college, college or school-to-work destinations.

**Dual Credit**
A program that will allow students to earn a college credit while in high school.

**EQAO Literacy Test**
The literacy test is written in Grade 10. A student must pass the literacy requirement to earn the OSSD.

**EQAO Math Test**
Students in Grade 9 Applied and Academic stream classes will complete an EQAO Math Assessment as part of their Grade 9 course.

**Exams**
Students may write an exam, which tests their knowledge on the entire course work, at or near the end of the semester.

**Optional Courses**
Students will select 12 courses that are of specific interest to them and which will count towards the 30 credit Ontario Secondary School Diploma (OSSD) requirements.

**OSSD**
The Ontario Secondary School Diploma is granted after fulfilling all necessary credits, literacy and community volunteer hours requirements.

**Prerequisite Course**
Refers to a specific course you must successfully complete before taking another course at the next grade level.

**Semester**
The school year is divided into two semesters. A student will usually take four courses in each semester.

**Specialist High Skills Major**
A program that will allow students to specialize in an area of interest.

**Timetable**
A timetable outlines the time, room number, lunch period, teacher and semester in which you will take all of your courses.

### 12 Optional Credits

#### 12 Optional Credits †

### Other Requirements

- Ontario Secondary School Literacy test taken in Grade 10
- 40 Community Volunteer Hours Completed over four years

* A maximum of three credits in English as a second language (ESL) or English literacy development (ELD) may be counted towards the four compulsory credits in English, but the fourth must be a credit earned for a Grade 12 compulsory English course.

** In groups 1, 2, and 3, a maximum of two credits in French as a second language can count as compulsory credits, one from group 1 and one from either group 2 or group 3.

*** A maximum of two credits in cooperative education can count as compulsory credits.

† The 12 optional credits may include up to four credits earned through approved dual credit courses.

---

### The OSSD

The OSSD is the diploma that students work towards achieving in secondary school. Every Kawartha Pine Ridge District School Board secondary school student must successfully complete the following requirements:

- 30 credits – 18 compulsory credits and 12 optional credits
- Ontario Secondary School Literacy Test
- 40 Community Involvement Hours

The diploma allows you to apply to university, college, apprenticeship training programs or the workplace.

### The Ontario Secondary School Certificate (OSSC)

The Ontario Secondary School Certificate will be granted on request to students who leave school before earning the Ontario Secondary School Diploma, provided that they have earned a minimum of 14 credits distributed as follows:

#### Compulsory credits (total of 7)
- 2 English
- 1 Canadian Geography or History
- 1 Mathematics
- 1 Science
- 1 Health and Physical Education
- 1 The Arts or Technological Education

#### Optional credits (total of 7) seven optional courses selected by the student
Course codes reflect government stipulations across the Province. All courses have the first five characters as mandated by the Ministry of Education and a sixth character for school use.

These letters identify the subject. Subject Codes – the first letter in the course code denotes the course’s department area:
- A: Arts
- B: Business
- C: Canadian & World Studies
- E: English
- F: French
- G: Guidance & Career Education
- H: Humanities & Social Sciences
- L: International Languages
- M: Mathematics
- P: Physical Education
- S: Sciences
- T: Technology

This number identifies the grade.
- 1: Grade 9
- 2: Grade 10
- 3: Grade 11
- 4: Grade 12

This letter identifies the course type or destination.
- A: Academic
- P: Applied
- L: Locally Developed
- O: Open
- C: College
- E: Workplace
- M: University/College
- U: University

This school indicator is used to distinguish course characteristics.
- 1: Common code
- B: Boys
- G: Girls
- S: Half Credit
- F: French Immersion

Each high school may have different start and end times, and different lunch times.
Learning skills are likely pretty familiar to you from the report cards you’ve received all through elementary school. These skills are very important, as demonstrating them will increase your ability to learn and be successful at school.

Read through the skills below - where are your strengths? Where might you want to improve?

**Responsibility**

*I can:*
- fulfil responsibilities and commitments
- complete and submit class work, homework, and assignments
- take responsibility for and manage own behaviour.

**Organization**

*I can:*
- devise and follow a plan for completing work and tasks;
- establish priorities and manage time
- identify, gather, evaluate, and use information, technology, and resources to complete tasks

**Independent Work**

*I can:*
- independently monitor, assess, and revise plans to complete tasks and meet goals;
- use class time appropriately to complete tasks;
- follow instructions with minimal supervision

**Self-Regulation**

*I can:*
- set goals and monitor my progress;
- ask for clarification or assistance;
- assess and reflect critically on my strengths, needs, and interests;
- identify opportunities, and strategies to meet my needs and achieve my goals;
- persevere and make an effort when challenged

**Collaboration**

*I can:*
- accept various roles and a fair share of group work
- respond positively to the ideas, opinions, values, and traditions of others;
- build healthy peer-to-peer relationships
- work with others to resolve conflicts & build consensus
- share information, resources, and expertise
- promote critical thinking to solve problems and make decisions.

**Initiative**

*I can:*
- look for and act on new ideas and opportunities for learning;
- be willing to innovate;
- take risks;
- be curious and interested in learning;
- approach new tasks with a positive attitude;
- recognize and advocate appropriately for myself and others

“Build good habits for study and work early on; get involved in extra curriculars you enjoy and others you’ve never tried. Never hesitate to ask for help.”

~Grade 12 Graduate Thomas A. Stewart Secondary School
Plan for Success!

What is a ‘Pathway’?

A Pathway is made up of the courses you choose, and the opportunities you take advantage of, to get to a destination after high school. Remember that the courses you choose in Grade 9 don’t restrict your pathway - it is possible to change your pathway as you progress through high school. You will learn and grow in your four years of high school, and your pathway should reflect that!

Which one do I choose?

Choosing a course type can be an intimidating decision for Grade 8’s coming into Grade 9. There are lots of choices. Know that there are many pathways to similar destinations, and it is just as important to build self-esteem and confidence as it is to build academic skills.

Choosing the best type of course to maximize on your strengths as a learner is a good way to approach your course selection. Your timetable can be a mix of course types, and you can move between course types in many subject areas!

Talk to your teacher, the guidance team at your new high school and your parents/guardians as you decide.

Pathways to Success

Applied “P”
- Learn essential concepts of a subject
- Practical, hands-on application
- Greater teacher direction, instruction & guided learning

Locally Developed “L”
- Learn essential concepts of a subject
- Practical, hands-on application
- Build life-skills within subject
- Smaller class sizes for increased teacher support (recommended for those with specific learning needs)

Academic “D”
- Learn essential concepts of a subject and explore related materials
- Emphasis on theory and abstract thinking as basis of future learning
- Students are comfortable with independent learning

Open “O”
- Learn concepts and skills designed to prepare for further study in the subject area
- Appropriate for all learners
- Optional courses in Grade 9 offered as “Open” courses

Remember...
You can change course types. In math, to move to from Grade 9 Applied to Grade 10 Academic, there is a 0.5 transfer course you will need to take. Your courses don’t all need to be the same type. Take the types that best suit your interests and abilities

Remember...
- All students can be successful
- Success comes in many forms
- There are many pathways to success

*All Pathways lead to the Workplace!
Your Individual Pathway

It's not always easy to answer the question, “What do you want to do after high school?” when you're in grade 8. You have lots of options available to you, and you definitely have time to make those choices before you graduate. It is important to begin to understand who you are, how you learn and what you are interested in, so you can set goals and explore possibilities for your future. Education and Career Life Planning isn't always about finding a straight line to the career of your dreams, but about exploring the important questions - Who am I? What are my opportunities? Who do I want to become? Then use what you learn about yourself to make a plan and achieve your goals.

Since Grade 7, you have been encouraged to document this journey in your Individual Pathways Plan (IPP) in Career Cruising. This plan allows you to track your accomplishments; document your abilities and interests and research possible pathways for after high school.

All students from Grades 7 - 12 are required to maintain a digital IPP and to review and update it at least twice each year.

Although you are encouraged to maintain your IPP independently, the teachers at your school will regularly provide you with opportunities to explore these four questions. Reflect on them and what they mean for who you want to become!

Career Cruising

At KPR, we use Career Cruising, a web-based planning tool, to explore strengths, interests, education options and career goals. It is also the tool you will use to select your courses for Grade 9!

Go to www.careercruising.com and enter your username (KPR-student number).

Start exploring who YOU are! Take the Matchmaker Quiz and explore your learning styles by Clicking on “Explore My Interests”

Map your courses for high school using the course planner.

Course Planner

Things to Consider:
- What you like
- What you’re good at
- The way you like to learn
- Possible pathways to jobs you might enjoy
- Skills you might need to learn
Helpful Tips and Information

Entering secondary school is a very exciting time for students but it can also lead to some anxiety. The following are tips suggested by present secondary school students to help you get started.

Tips from Graduates

“Don’t be afraid to try new things and make new friends. It’s important to join clubs and get involved with the activities going on in high school.” ~ Grade 12 Graduate (Campbellford District High School)

“Don’t have your mind set on becoming one thing right away- take your time to discover your skills before committing to a career. You have as much time as you need.” ~ Grade 12 Graduate (Courtice Secondary School)

“Embrace all of the opportunities high school has to offer! Strive to be someone who has character, because grades are not the only things that matter.” ~ Grade 12 Graduate (Clarington Central Secondary School)

Make sure travel arrangements to and from school are organized.

If you are eligible for busing, find out your pick up and drop off times and location prior to the start of school. Have back up travel arrangements in case you miss the bus or have to stay after school. If you have questions, call (705) 748-5500 or 1-800-757-0307 or visit www.stsco.ca (bus cancellation).

Use an agenda (electronic or paper) so that you can develop good study habits and practice organizational skills.

Set aside a particular time to study and find somewhere private and quiet to do so. Work out a daily timetable that incorporates all your needs and interests.

Extracurricular clubs, volunteer hours, sports, and even favourite TV programs are all part of your daily schedule, which needs to be kept organized. Include these activities in your agenda in addition to homework time, assignment due dates, upcoming tests and exam dates. It is important that you complete and submit all assessments as required.

Attend the Orientation Days arranged by your Secondary School.

Watch for information in your school’s newsletters about parent information nights, teacher visits, school orientation days and welcome days (often held in late August). All of these events are designed to help students prepare for secondary school.
School Routines and Timetables
The school will provide information regarding start/end times and basic routines. Most schools allow 5-10 minutes to get to your next class. Plan your route wisely so you are on time—late students are disruptive to all students. Obtain general school supplies during the summer or on school breaks. Teachers will let you know if you need specific course supplies on the first day of class. Lunch periods will be included in your timetable—plan accordingly to ensure you are not hungry. All secondary schools have cafeterias.

School Fees
Each school may charge students for co-curricular activities. These activity fees may vary from school to school. Students who are experiencing financial difficulties are invited to speak to a Guidance Counsellor or Student Success teacher to access financial support.

Volunteer Hours
Students may begin to collect the 40 community volunteer hours for their graduation requirement after they complete Grade 8. Each student will be given the community involvement guideline. Please call a Guidance Counsellor if you have any doubts about the volunteer activity being chosen. Remember that these hours must be completed outside of the school day.

Attendance
All schools have moved to an automated system for reporting student absences called SchoolMessenger. You can register at studentabsence.kprdsb.ca or by adding the app through Google Play or the Apple App Store. It is important to report absences, and to plan for them. While guardians report absences through SchoolMessenger, students make arrangements with their teachers for the work they will miss.

Locks and Lockers
You will be given your own locker, which is identified by a number. Keep your lock combination secret to protect the belongings you store in your locker. Remember to use your locker throughout the day to avoid carrying all your books in your school bag. Store some in your locker and visit it during the day to exchange books.

Helpful Websites

Math Homework Help
https://homeworkhelp.ilc.org
Homework Help is a FREE online math help resource for students in Grades 7-10. Homework Help provides FREE, live one-on-one tutoring from Ontario teachers. Homework Help is funded by the Ontario government and administered by TVO.

Edsby
https://kpr.edsby.com/
Edsby is a learning management system used to promote communications and collaboration between K to 12 students, teachers, parents and school administrators.

Education Quality and Accountability Office
http://www.eqao.com
Provides students, parents, teachers and the public accurate and reliable information about student achievement.

Ministry of Education
http://www.edu.gov.on.ca
Provides information on educational policy, curriculum and educational issues in Ontario.

Ontario Curriculum Centre
http://www.curriculum.org
Provides course curriculum for all courses offered in Ontario.
Cooperative Education & Experiential Learning

Experiential learning programs, such as co-op, OYAP and project-based learning, offer students a great opportunity to learn in the classroom, and to have hands-on learning in the workplace. All students can benefit from this kind of learning, no matter what their pathway is - work, apprenticeship, college or university.

Benefits of Co-op:

- Develop Employability skills
- Explore career pathways
- Gain work experience
- Earn credits for work in different environments

Specialist High Skills Major (SHSM)

The Specialist High Skills Major (SHSM), a province-wide initiative, enables students to customize their high school experience to suit their interests and talents. The goal is to prepare for a successful post-secondary transition to apprenticeship training, college, university, or employment, while meeting the requirements of the Ontario Secondary School Diploma (OSSD).

When do students start SHSM?

Students are able to enter a SHSM based on readiness and alignment of the program with their interests and postsecondary goals. Entry should occur no later than Year Three in order for the student to be appropriately scheduled into the required courses.

Students interested in SHSM will be able to:

- Select a bundle of 8-10 credits identified in a Ministry-approved framework, which includes:
  - 4 MAJOR credits (two Grade 11 credits & two Grade 12 credits with sector-specific connections)
  - 2 - 4 Required Credits (including English, Science and Math)
  - Certifications (such as WHMIS, First Aid, CPR)
  - 2 credits in Co-Operative Education
  - Reach Ahead Experiences (such as industry tours, visits to colleges & universities and trips to training facilities)

Dual Credit Program

Dual credits are unique programs that allow high school students to earn credits towards their OSSD while also earning credits towards a post-secondary diploma, degree or apprenticeship certification. This is a great opportunity to:

- Familiarity with being on a post-secondary campus
- Exposure to the types of learning/instruction in post-secondary
- Gain experience to help them with the transition out of high school
- Get a head start on their future!
How do the courses you take in high school relate to what you want to do after high school? Sometimes the hardest conversation is not about what you want to do one day, but about how the things you are interested in - and good at - now, can lead to a career in your future.

</table>
At Kawartha Pine Ridge DSB, we are providing students with educational opportunities to support their learning through the use of technology. With the use of digital tools and software, we can offer students expanded learning through access to online courses and software in the classroom.

**ELEARNING**

As students progress through high school, they will have the opportunity to take courses online which they can select through their Guidance Counsellor. Registration in eLearning provides access to a wide variety of courses from school boards across Ontario. Online courses provide flexibility for students who may have conflicts in their schedules or are experiencing other challenges. Courses are written by the Ministry of Education and delivered over the internet by certified Ontario teachers.

**BLENDED LEARNING**

The focus of Blended learning is to provide students with the opportunity to make use of technology tools to enhance their learning in the classroom. Teachers promote the use of digital tools in research, communication, creation and presentation of student learning. These students can access information, communicate with other students in their class and submit digital assignments to their teachers.

**EDSBY**

In support and extension of Blended learning, Kawartha Pine Ridge District School Board has recently opened a portal through the use of a new application known as Edsby, to promote parent/teacher/student communication, collaboration and feedback. This virtual tool can be used by teachers to make the files they would like their student’s to access available online and provide a virtual space through which parents can view student progress and communicate with their child’s teacher. If you haven’t received an email to access Edsby, please contact the school office.

**Dates to Keep in Mind...**

**November 14**

“Take your Grade 8’s to High School Day”

**Winter 2018/2019**

- Grade 8 Open House nights at the high schools: This is a great opportunity to talk to high school teachers, guidance counsellors and administrators about programs, pathways and the exciting activities available in KPR secondary schools
- School Visits: Guidance Counsellors from the high schools will come to you! Ask questions about courses, activities and anything else you wonder about. They are coming to you to answer these questions!
- Course Selections for Grade 9: You will use Career Cruising to select your courses for next year. Talk to your Grade 8 teacher and your family and use this guide to make your selections!
- Transition meetings for Special Education: Students with an IEP will be able to meet with the SERT from their secondary school, their parents and their elementary team to plan the transition to high school

**Spring 2019**

- Consider what Community Involvement Activities you might want to begin this summer. If you’re unsure if what you’re thinking about is an appropriate choice, call your high school!
You are already building skills that will help you be a successful student. Continue to build these skills throughout high school - they will be valued by employers, colleges and universities!

**...Innovators, Creators & Entrepreneurs:**
- Contribute solutions to complex problems;
- Enhance a concept, idea, or a product;
- Take risks in thinking and creating;
- Make discoveries through inquiry research;
- Pursue new ideas to meet a need of a community;
- Lead and motivate with an ethical entrepreneurial spirit.

**...Critical Thinkers & Problem Solvers:**
- Solve meaningful, real-life, complex problems;
- Take concrete steps to address issues;
- Design and manage projects;
- Acquire, processes, interpret, and analyse information to make informed decisions (critical and digital literacy);
- Engage in an inquiry process to solve problems;
- Make connections and transfer learning from one situation to another.

**...Collaborators:**
- Participate in teams; establish positive relationships;
- Learn from, and contribute to, the learning of others;
- Co-construct knowledge, meaning, and content;
- Assume various roles on the team;
- Manage conflict;
- Network with a variety of communities/groups;
- Respect a diversity of perspectives.

**...Self-Aware & Self-Directed Learners:**
- Learn the process of learning (metacognition);
- Have a growth mindset;
- Persevere and overcome challenges to reach a goal;
- Self-regulate in order to become a lifelong learner;
- Reflect on experience to enhance learning;
- Cultivate emotional intelligence to understand self and other;
- Adapt to change and show resilience to adversity;
- Manage various aspects of life - physical, emotional (relationships, self-awareness), spiritual, and mental well-being.

**...Global Citizens:**
- Contribute to society and the culture of the local, global, and digital community in a responsible, accountable and ethical manner;
- Engage in local and global initiatives to make a difference;
- Learn from and with diverse people;
- Interact safely and responsibly within a variety of communities;
- Create a positive digital footprint;
- Relate to the environment and are mindful of the importance of all living things.

**...Communicators:**
- Communicate effectively in different contexts in oral and written form in French and/or English;
- Communicate using a variety of media;
- Select appropriate digital tools according to purpose;
- Listen to understand all points of view;
- Gain knowledge about a variety of languages;
- Voice their opinions and advocate for ideas.

"Get out there and try stuff out of your comfort zone, take risks. You might find that you love it!"
