KPR Artificial Intelligence
Guiding Principles
Kindergarten - Grade 6

KPR
Kawartha Pine Ridge
District School Board

Prioritize Humane & Ethical Use
Technology can boost our abilities without replacing our own skills. Remember that we can do hard things.

Focus on Education & Learning
AI can support us to achieve more and discover new learning opportunities.

Champion Equity & Justice
If AI shares information that is inappropriate or confusing, we will speak to a trusted adult.

Be Transparent
We will always ask an educator before using AI and be honest when we have used AI with our work. For example: "This image was generated by AI."

Safeguard Privacy, Security & Data Protection
When it comes to AI, we must always keep personal details like names, numbers, and passwords to ourselves to protect our online safety and privacy.
