Bullying Prevention and Intervention Plan

We believe the most effective way to address bullying is through a comprehensive, school-wide approach that engages all parties—students, parents, guardians, staff, school councils, volunteers, and the community.

This school-based plan aligns with the Kawartha Pine Ridge District School Board's Bullying Prevention and Intervention Plan. Our plan promotes a school-wide approach to ensuring a safe, inclusive, and accepting school environment free from bullying, harassment, discrimination, and other inappropriate behaviours.

The Board's Bullying Prevention and Intervention Plan and our school's plan reflect the Ministry of Education guidelines.

Bullying: Aggressive and typically repeated behaviour by a pupil or individual where:

- a) The behaviour is intended by the pupil to have the effect of, or the pupil ought to know that the behaviour would be likely to have the effect of,
 - i. causing harm, fear or distress to another individual, including physical, psychological, social or academic harm, harm to the individual's reputation or harm to the individual's property, or
 - ii. creating a negative environment at a school for another individual, and
- b) The behaviour occurs in a context where there is a real or perceived power imbalance between the pupil and the individual based on factors such as ancestry, size, strength, age, intelligence, peer group power (e.g., popularity), economic status, social status, religion, ethnic origin, sexual orientation, family circumstances, gender, gender identity, gender expression, race, disability or the receipt of special education; the behaviour includes the use of any physical, verbal, electronic, written or other means.

Cyberbullying: Includes bullying by electronic means including, but not limited to:

- a) Creating any type of media or post in which the creator assumes the identity of another person
- b) Impersonating another person as the author of content or messages posted on the internet, and/or
- c) Communicating inappropriate material electronically to one or more than one individual or posting inappropriate material on a website that may be accessed by one or more individuals.

Teasing: A type of "playful" interaction that can range from positive (e.g., bantering, joshing, ribbing) to negative (e.g., mocking, pestering, tormenting)

- a) Positive teasing takes place within a healthy relationship. It is good-natured, fun and reciprocal.
- b) Negative teasing is characterized by words or actions that cause harm on one or both sides of the interaction. Negative teasing harms relationships as well as the school climate.

Conflict: A normal type of interaction that everyone should learn to navigate and resolve effectively. Conflict may be distinguished from other harmful interactions in that:

- a) There is no power imbalance between those in conflict, or at least, the power imbalance is not being weaponized by the person with more power
- b) All parties are typically invested in resolving the conflict (or at least ending it)
- c) Conflict most often occurs among people who share an existing relationship: classmates, siblings, friends, partners, colleagues, etc.
- d) Tensions underlying the conflict are not related to identity (e.g., ancestry, race, ethnicity, gender, sexual orientation, religion) and may be amplified by stressors for one or both parties in conflict
- e) Conflict typically centers on disagreement, personal errors, unclear or unmet expectations, or poor communication.

Aggression: A response to conflict, threat or an internal emotional state of anger/irritability in which the intent to harm may or may not be present. Aggression:

- a) Can take direct or indirect forms, including physical, verbal, social and electronic
- b) Can become bullying when a power imbalance in a relationship develops over time because repeated acts of aggression may intimidate the person on the receiving end.

Strategies to respond to incidents of bullying may include, but are not limited to:

- Collaborative problem-solving
- Providing students with the opportunity to learn life skills such as conflict resolution and anger management
- Consideration of mitigating factors
- Ensuring that contact is made with the parent(s)/guardian(s) of students under the age of 18 early in the process and involving them in a plan to improve the behaviour
- Education worker support (e.g., Child and Youth Worker, Educational Assistant)
- Referral to outside agencies (e.g., Kinark, Community Counselling Resource Centre)
- Restorative justice practices (e.g., written or verbal apology)
- Character development strategies and programs
